Raise a DVLA Check Code

This is the new process allowing hire companies to check your licence now that paper licence documents are no longer being updated with endorsements.

Raising a DVLA check code allows us to create the paperwork our insurers require to validate your insurance during the hire period.

Step 1 Visit the DVLA website using the link below:

<https://www.viewdrivingrecord.service.gov.uk/driving-record/licence-number>

Step 2 Enter the following:

1. Driving license number
2. National Insurance number
- 3 Postcode

Tick 'Agree to Share your details'.

Click 'View Now'.

Step 3 On this screen select the 3rd option on the top right, 'Share your licence information'

Your code will then be supplied.

Step 4 You can either email us the code exactly as it appears on the screen. Or you can click 'Print' and it will download the page we need. Email that to us and you're done.

Thank you,

Stacy & Craig
